BANGOR DAILY WHIG AND COURIER

BY SMITH & SAYWARD. THURSDAY, AUGUST 2, 1849. VOLUME XV......NUMBER 27.

MYERS' LIQUID CURE,

positive and never-failing Remedy

FOR PILES,

Whether Internal, External, Blind or Bleeding, Scrofula, White Swellings, Ulcers, and Ulcerated Sore Throat, Canker Sore Mouth, Rheumatism, Cutaneous Diseases,

Mercurial Affections, &c.

...ALSO FOR....

Scalds, Burns, Cuts, Sprains, Bruises, &c.

We feel justified in proclaiming

THE FACT TO THE WORLD

THAT of all medicines ever brought before the Public NONE have ever been more beneficial to afflicted humanity than "Myers' Liquid Cure." We know that this is saying a great deal, but if we were to write volumes, we could not say too much in praise of this

Health-Restoring, Life-Prolonging Remedy.

Hundreds, nay thousands, bless the happy hour when first they were made acquainted with its transcendant virtues; and our present purpose is to inform other thousands how and where they may obtain that relief, which they perhaps, have long sought for in vain.

The superior excellence of this preparation over all other medicines for the speedy and permanent cure of PILES, is well known to all who have tested it. It has been proved in thousands of instances, and has

NEVER FAILED

to cure the

MOST OBSTINATE CASES,

and we are confident it

NEVER WILL FAIL,

if used a proper length of time according to directions. As a proof of our entire confidence in its efficacy, we assure all purchasers that, if, after a proper trial, it prove ineffectual, *the money paid for it will be returned.*

The Liquid Cure is an effectual Remedy for

Ringworms, Biles, Pimples,

Barbers Itch, Frosted Limbs, Chilblains, Salt Rheum, Musquito Bites, Stings of Poisonous Insects, &c. and for Cutaneous Diseases of every description.

It is both safe and effectual for

RHEUMATISM,

giving immediate and permanent relief.

No preparation now before the Public can equal the excellence of the Liquid Cure for Scalds, Burns, Cuts, Sprains, Bruises, Swellings, &c.

Its effects as a REAL PAIN KILLER, are

MAGICAL.

Every Family in the Land

should provide themselves with this Invaluable medicine, the cheapness of which places it within the reach of all.

Full Directions accompany each bottle.

Pamphlets containing copies of certificates from those who have tested the "Liquid Cure," may be had *Gratis* of our authorised agents.

McKENNEY'S

COSSACK SALVE!!

An Invaluable Remedy

FOR Fever Sores, Rheumatism, Swelling of the ... Swelling of the Tonsils or ... Throat, Chronic Eruptions of the Skin, and ... Diseases, Rigid Cords occasioned by ... Stiff Neck, Chilblains or Chapped hand, Sore or Inflamed Breast, Weakness or ... in the Stomach, Piles, Corns, Warts, and common Sores, and Cuts and Bruises of all kinds.

In bringing this article before the Public, we are aware that we lie under no small disadvantage amidst the multitude of "All Healing Ointments" and Panaceas, that are now advertised as the *most effectual* and *certain cures* for all diseases indiscriminately, to which man or animals are subject.

A history of this Salve, and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing.

We would only add that we have undertaken the task of manufacturing the above named Salve, at no inconsiderable trouble and expense, not so much as a matter of peculation and pecuniary benefit, as in compliance with the earnest and repeated solicitations of personal friends, and those who have experienced its benefit, and medicinal and all-healing properties.

To say indeed that we do not expect to realize any ... remuneration for our services, would ... useless and untrue ... we flatter ourselves that if, ... we are richly paid, and the article soon very soon has an extensive sale—the public are receiving a full and ample equivalent.

As we have already intimated, we do not and shall not call to our aid the empty *puffing of the press*, or the bought certificates of individuals, and shall make use of them only so far as they have been or hereafter may be entirely *voluntary and unsolicited.*

The Salve is now before the Public.

They and they alone will decide upon its real virtues and medicinal properties. ... to say less, were injustice to ourselves—to say more would be superfluous.

Here are some of the many Certificates:—

The subscriber was afflicted with a Fever Sore on his leg for about six years, and in the winter of 1840 it commenced swelling from the ankle to the knee. After using many remedies without success, I applied some Salve obtained of Mr. A. McKenney, and continued its application until I had used six bottles which entirely cured me, and I have had no return of the disease since. I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for that purpose with complete success.

DANIEL SEAVEY

Dexter (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year, and having tried various means to effect a cure without success, which cost me about forty dollars, I bought 1 box of JONATHAN McKENNEY'S SALVE which effected an entire cure in less than two months.

BANGOR, June 5, 1846

Mr. McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation, I was induced to take a few bottles of your Salve, it having been recommended to me as one of the best remedies for accidental Cuts and Bruises, and I ... it ... to my great satisfaction, that it was an invaluable article. I also made application of it in cases of Cuts, Sprains, and Bruises upon my cattle, and found it equally beneficial. It can truly be called the All Healing Salve.

Aromatic Catarrh and Headache Snuff.

THIS article is the *best preparation in the world for a cold in the head*, the HEADACHE, and all CATARRHAL AFFECTIONS.

It cleanses and strengthens, and restores to healthy action all the organs and membraneous passages of the head, the obstruction of which produces *pain in the fore head and region of the eyes, a sort of snuffing in the nose, a flow of matter dropping from the head into the throat, &c.*

It ... cures easily and speedily, and the most confirmed cases of CATARRH, it usually cures in from two to four months.

It is also an *unfailing cure for the NOSE BLEED, if persevered in but a short time.*

NEW WATER CURE

ESTABLISHMENT

....AT....

GORHAM, MAINE.

THE subscriber has taken that beautiful and eligible situation in Gorham, Maine, known as the WOODBURY ESTATE which he has fitted up for a

Water Cure Establishment,

And which will be open for the reception of patients on the first day of May instant.

The House is large, elegant, and commodious,—the rooms spacious and airy, and the whole is furnished in such a manner as to gratify the taste while it secures the comfort and promotes the health of the inmates.

The location of this establishment is such that it leaves nothing in that respect to be desired. It is one of the most delightful residences in New England, and combines the advantages of the rural pleasures and quiet of the country with near proximity to the city. It is one mile from Gorham village, and only eight miles from the city of Portland, hence it is easily accessible from all parts of the country.

The water is pure and abundant,—the most convenient arrangements for its application will be adopted, and no pains will be spared to render the treatment efficient.

The Proprietor being a regularly educated physician and having had much experience in other modes of practice as well as in Hydropathy, and having moreover visited the most celebrated Hydropathic Institutions in England, France, Germany and Belgium for the purpose of obtaining a thorough knowledge of the system, confidently hopes to give satisfaction to all who may place themselves under his care.

Genteel Horses and Carriages, good saddle Horses and various sources of innocent and healthful amusement will be provided.

Important Discovery

GRAY HAIR can be restored to its original color, whether Auburn, Brown or Black. Sandy, Light or Red Hair can be matched with any darker shade, surpassing in beauty even the most natural locks, retaining the gloss and softness of the original Hair, by using O. M. Ballard's

Permanent Liquid Hair Dye.

Of one preparation which is entirely different from all other preparations of Hair Dye now before the public. It is free from all injurious properties, which can be tested by taking a lock of the finest and most delicate Hair of an infant, and color it with the Dye, which will not impair its gloss or its texture in the slightest degree, which is the best evidence which can be given that it is not injurious. On the contrary it improves the lustre of the hair, promotes its growth and prevents it from falling out, and unlike other preparations, after the Hair is colored and dry, will not crock, fade, or wash out.

In short, from its peculiar delicacy, softness and easy application it is worthy the attention of all who may wish to improve the color of the Hair, as it will make any shade from a white to a jet black. It is now used to an unaccountable extent by persons who have prematurely turned gray, and others who's Hair is of no desirable color, which they restore or exchange for a beautiful Auburn, Brown or Black, without any additional preparation or the slightest trouble.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U. S. Patent Office for receiving and forwarding to the same models, specimens or manufactures to be patented, or deposited therein, which will be sent free of expense and risk, and with despatch. He will prepare Caveats, Specifications, Assignments and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works to test the validity of inventions and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. They also have the advantage of verbally explaining their inventions and of consulting in respect to them, *matters, in general of paramount importance in order to obtain correct specifications and claims.* The experience of sixteen years practice, an extensive collection of rare works, decisions, &c. on mechanical subjects, the Patent Laws and patents of different countries, collected at much expense during the long time this office has been established, together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

THE SEA LIONS. For sale by E. F. DUREN.

MRS. E. KIDDER'S

Cholera, Dysentery,

...AND...

Diarrhœa Cordial,

—AN—

Immediate and Perfect Remedy,

...FOR...

Cholera, Dysentery, Summer Complaints of Children, Diarrhœa, Sea Sickness, general Debility, &c.

WHERE this all powerful antidote is at hand Cholera is no longer to be seriously feared or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement.—It has been before the public for more than seventeen years, and was the first article made known to the public as an

IMMEDIATE AND PERFECT CURE

OF THE

CHOLERA.

It has been thoroughly tested in every country and every climate, and its effect has every where proved the same,

SURE TO CURE,

even where the disease has advanced to its last stages.

CHOLERA.

Accounts almost daily reach us of the ravages of the CHOLERA, both at home and abroad, and of the little success which has thus far attended the attempts to check its frightful inroads on human life.

Such being the fact, it surely may be regarded as an era in modern discoveries that a medicine has been discovered possessing the power of checking the progress of the Cholera and eradicating it from the system.

Mrs. Kidder would most respectfully call the attention of the public to this invaluable medicine known as her

"CHOLERA, DYSENTERY AND DIARRHŒA CORDIAL."

Many thousand lives have been saved by this medicine when the disease had advanced to its last stages.

It is hoped that every housekeeper will keep the Cordial at hand, and if timely administered but little danger is to be apprehended from an attack of the

Cholera, Dysentery or Diarrhœa.

The Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa, and restores the bowels to a perfectly regular and healthy state, however severe the attack may be or however low the patient may have become it invariably restores.

The Severest Cases of Dysentery

are immediately counteracted, the pains allayed, the bowels healed, and not unfrequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

Either in children or adults, of months or years continuance, is most readily cured with this Cordial, ... standing they may be reduced to mere skeletons, it immediately strengthens and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children who were reduced to death's door by this complaint—it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting produced from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa should always be provided with this medicine, as it will keep the bowels regulated and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it, and will take it without trouble or dislike.

For General Debility and Dyspepsia,

it is a most excellent restorative, giving a healthy tone to both the stomach and bowels and prevents food from pressing or distressing the stomach.

The public may rest assured that it contains neither opium or mineral substances, or anything that is in the least injurious to the constitution.

CAUTION.

Be sure that you obtain MRS. E. KIDDER'S CHOLERA MORBUS, DYSENTERY and DIARRHŒA CORDIAL, and you will get the only true and original article, which has ever been in the highest estimation by the public throughout the whole country.

It is put up in bottles holding nearly a quart, intended for family use, and sold at One Dollar per bottle.

Holden's Alterative and

TONIC MIXTURE,

IS the best combination known for changing the unhealthy secretions of the Stomach, for giving strength to that organ, and for removing many troubles which are often attributed to impurity of the blood.

Its action is that of a mild Alterative and Tonic, restoring health and strength often without producing any sensible evacuation, and without leaving behind an unpleasant effect on the constitution.

By its use the appetite becomes regular and good, digestion perfect, sick head ache and many nervous disturbances growing out of imperfect digestion are generally cured; persons of debilitated constitutions become healthy and strong by its use.

By reason of the sympathy between the stomach and the skin many diseases of the latter grow out of a morbid action of the former, even when the ordinary symptoms of Dyspepsia are wanting, and are cured by this medicine.

Many troubles of children supposed to arise from worms are caused by a deranged state of the stomach, and are removed by its use. Persons both adult and children left feeble by protracted illness on the same principle are restored to health and vigor by taking it.

It contains no poisonous ingredient, and cannot in any case do harm.

Home Testimony.

We, the undersigned, have ourselves or in our families used Holden's Alterative and Tonic Mixture, and are satisfied it is a very valuable preparation for the cases for which it is recommended.

I have sold a large number of Holden's Alterative and Tonic Mixture the past year in this city, and have found it to give more general satisfaction than any article I have sold for the purposes for which it is recommended, and have received many verbal assurances of its extraordinary efficacy from persons whom I feel confident will not be deceived. THE greatest invention of the age,—the most practical and scientific production ever made in the Stove line. 3000 of these Stoves were sold in New England during 1848.—More than 5000 are now ordered of the Manufacturers in New England alone. This Stove has received the highest premium from every Fair that it has been exhibited before.

Hot Blast Air-Tight

COOKING STOVE.

[We would call the attention of the reader to the Report of the Worcester County Mechanics Association held in the city of Worcester, Sept 1848.]

112. *Hot Blast Air Tight Cooking stove,* contributed by Gordon Williston, Worcester. This stove involves an entire new principle in applying the heat to the baking or broiling of meats. The fine flavor of meat cooked directly upon the coals is the result of the action of the carbon ... broil on coals or ... best Stoves ... this flavor is acquired. It is both a defile ... and disagreeable operation. But in this stove a steak was broiled in three minutes without any smoke or odor escaping into the room. It was evenly and well cooked and had all the pleasant twang of a coal broil. A large oven immediately over the ordinary oven is so constructed that the whole body of heat can be made to pass through it, forming for the time being a flue for the draft. This arrangement secures all the qualities of a good broiler or baker in meats without the labor usually attendant on such affairs. It likewise has good radiating qualities, with a large oven and convenient arrangements for cooking furniture.—[Silver Medal.

ECONOMY IS THE ROAD

—TO—

CALIFORNIA.

THE subscriber would respectfully inform all those who are desirous to go to California, but find themselves minus the TIN,—that he has recommenced his business of

Tailoring and Clothes Cleansing,

—at his OLD STAND—

110 Main Street,

And assures the public that they will find his establishment (before he commences to go to California) therefore all who have soiled garments and would use economy, are requested to call at MURRY'S. He warrants to remove spots occasioned by acids, grease, paint, tar, ... and marks of all kinds, and press and finish the garments in a superior manner. This mode of cleansing garments is different from any in the city, as it does not injure them either in form or durability, but gives them the appearance of new.

Repairing and altering done in the neatest style. His work will be done well at reasonable prices and with punctuality.

He respectfully returns his sincere thanks to the citizens of Bangor and the public in general, for the very liberal patronage he received while in business heretofore, and hopes by strict attention, and by superior skill in the business, (as all who have favored him with their custom can testify) to merit and receive a share of public patronage.

LATEST AND BEST

IMPROVED

Patent Bedstead.

THE Subscribers have purchased the right of manufacturing and vending HINKLEY'S IMPROVED PATENT BEDSTEAD for the city of Bangor.

This improvement is simple in its construction, and consists in furnishing a substantial Bottom to Bedsteads, which shall be elastic and have all the advantages of a Slat or Sacking Bedstead, while at the same time it serves to secure the posts and rails compactly together without other aid. It can be fitted to any Bedstead *old* or *new,* with much less time and labor than is required to put in a cord, and when fitted, gives *great strength* and support, and keeps the Bedstead in proper shape. It cannot be doubted that this simple improvement, will when known take the place of every other one now in use. We can confidently recommend the above improvement to our customers and to the public, as the cheapest, most substantial and best Patent Bedstead ever invented.

The Public are respectfully invited to call and see for themselves. SHAW & MERRILL,

WHIG NOMINATION.

FOR GOVERNOR,

ELIJAH L. HAMLIN.

☞The first intimation we have had of any denial of a statement made by us in one of our letters published in the Whig is the following from the Lowell Journal

"We started a paragraph some days since borrowed from the editorial correspondence of the Bangor Whig which stated that four of the superintendants of the Manchester factories, and their wives were once operatives in the mills The N H Patriot and several other journals who abhor to hear anything good of our manufacturing corporations promptly denied the truth of the statement The Manchester American however, corroborates it thus—"Mr Gillis of the Amoskeag and Mr Adams of the Stark were employed when mere boys in the mills, though not in the *Manchester* mills and the editor of the Whig does not say "Manchester Mills. Mr Newell of the Merrimack mills and Print Works and Mr Bailey of the Machine Shop were formerly and for some years employed as apprentices and common laborers in a Machine Shop Whether these agents wives were operators or not we are not aware We have been told however, that one of them was a milliner and two of the others were mill girls

We thank the American for its statement We knew very well that the gentlemen we mentioned did not work as operatives in the manufacturing establishments at Manchester, and we could have told where each formerly worked had we deemed that fact of any importance What interested us was the fact that the most responsible as well as lucrative stations had been reached by those who in early life were operatives but who by good conduct and the improvement of their God given powers, under our free institutions had fitted themselves for an honorable discharge of the duties of such stations We thought less we freely confess of those particular men or how they, or their accomplished and worthy wives would be affected by the announcement, than of those now toiling earnest, studious and we may as well say self relying and ambitious youth now in factories and work shops to whom such examples would be encouragement above all price We wished to give an influence for their benefit—to throw a ray of light over their prospects—to illuminate their horizon with the glow of hope Here we find an ample justification for the publicity we gave to the statement referred to and the entire truth of which we have reason to believe cannot be successfully denied, let who will attempt it, or for whatever cause

National Fast.

To-morrow is the day earnestly recommended by the President to be observed as a day of Fasting, Humiliation and Prayer, to acknowledge the INFINITE GOODNESS which has watched over our existence as a nation, and so long crowned us with manifold blessings, and to implore the ALMIGHTY, in HIS own good time, to stay the destroying hand which is now lifted up against us

The day will be generally observed by the various Christian denominations in our city, and ordinary business will be suspended No paper will be issued from this office to-morrow

☞We learn that intelligence has been received in this city, of the death of Charles Gilman Esq at Quincy Illinois, of cholera

This intelligence will cause many here to mourn Mr Gilman left this city, where he had numerous friends, some ten years since and had acquired a high reputation in his adopted State as a scholar and a Lawyer His prospects were very flattering for reaching the highest honors of his profession He will long be remembered here as one worthy of high respect and whose literary labors conferred honor upon the city

☞The course of Col Benton in Missouri in his bold speeches against Slavery, is exciting the deepest attention of the people and just now seems to be rousing a feeling of indignation The law of the State is ransaged to find some clause by which he may be stopped and in case of failure there, that speedy and atrocious code of Judge Lynch is strongly hinted at

☞The letter of our California correspondent, which we publish to-day, will be found highly interesting, and perfectly reliable He sent on a small quantity of gold the result of his own digging, as a tempting specimen for us to gaze upon and wonder over

☞Moses Grant Esq of Boston, the well known Philanthropist has given encouragement that he would visit *Bangor* the present season probably with Father Mathew

☞The religious meeting of the Second Baptist Society will be held to-morrow at 10 o clock A M

☞Thanks to Hodgman and Co s Express for a fine lot of papers by the Kennebec on yesterday

☞Thanks to Capt Cates, of Bryant & Co s Express for papers received on yesterday in advance of the Mail

COLONIA MILLS SOUTH FORK
RIO AMERICANO, May 4th, 1849

To the Editor of the Whig and Courier

Since my last, I have 'packed' over the Mountains, have shot a Deer, a Panther, and a Hare, shot at a Grisly Bear, and seen a few Indians killed, had a little brush with three Indians myself, and dug a very little gold

This last being the topic that will most interest you, I will devote the few lines I can spare you to-day to a slight sketch of my experience

After some ten days passed here in disposing of my superfluous wearing apparel, (which means all but *one suit*) I stored my tent which at this season is useless, hired a boy of sixteen at one hundred and fifty dollars per month, 'packed' him with thirty pounds, my horse with two hundred pounds, and my own broad back with sixty pounds of provisions, two blankets, mining implements, cooking utensils and India rubber bed, (the last no one should come without) I crossed the Middle Fork, and some two hours before sundown commenced the ascent of the hill on the opposite side, which is one and a half miles, and nearly the whole distance so steep as to require active use of hands as well as feet, and in the opinion of most of my companions another agent, in the shape of old Mongahela

Without mishap we accomplished the feat, though I must confess that pride only prevented me from leaving a portion of my pack at the first quarter A mile farther on, we spread our blankets under the broad limbs of a splendid oak, and making a hearty meal of ham, tea, and hard bread, were soon enjoying a most refreshing sleep

I had chosen for my companions, a party of twelve who have been in the mines, since their first discovery, and had wintered on the bank of the Middle Fork, in a ravine from which thousands of dollars have been taken, and we determined to pass a night at the old camping ground before crossing the Middle to go to the North Fork, which is to be the scene of our operations for some time to come

We started in good season next morning, and journeying leisurely over a very mountainous country, fifteen miles, arrived at camp at two P M

Having, when some three miles from the river, found a ravine from which one of our party took five dollars in as many minutes, we determined to return there in the morning and prospect it more throughly we did so, and the result was one dollar from the same pocket fifty cents from another, and about twenty five from a bushel of earth washed in pans and we came back to camp not very much encouraged by our first day s experience in Gold Digging Next day I went with my boy into a ravine near camp, at sunrise, and after a day of toil hod carrier or pavier never experienced, weighed out at night, two dollars each, and of twenty experienced diggers in the same ravine, one only took out as much as we and he in the morning, from a pan full of earth took eight and one quarter ounces of fine gold, and during the whole of the day found not another cent We had rested here on account of the great height of the river finding it impossible to swim our horses across 24th—went to Spanish bar, alone, hoping to find the river at such a stage, as to enable us to cross, the distance is about three miles, two of which are over a hill so much more steep, and difficult of ascent, than that from the Mill, that the latter seems quite a Molehill

During my absence that day, my boy dug three ounces, and the next day the proceeds of ten hours most severe labor was four ounces

The whole party satisfied that the ravine was exhausted, and the river continuing high, resolved upon devoting their time to hunting, shooting at marks, reading, sleeping, etc, until the fall of the river should enable them to work in its bed

Myself, and boy and two Chilenians were an exception, not having been long enough in the Diggins to refuse to work for less than three ounces per day From one pocket of this ravine two thousand dollars were taken in two days, last winter, twenty feet above, I with boy worked hard one and a half days, removing large rocks, building dam, scratching with knife, digging with pick and shovel, the result of all which was one ounce, while a Californian ten feet from me, from a part of the ravine supposed to have been thoroughly worked, took out three hundred dollars in two pans full of earth, in pieces weighing from two ounces down to one dwt this gold had found its way down through a very small crevice in the rock and worked through a solid bed of clay one foot thick, and no miner of experience would have looked there for it In a ravine one mile distant where I worked a few days, getting from two dollars to two ounces per day, we found the gold on the *surface* earth of the bed of the ravine, frequently in sight and in such shapes it is called the 'ragged ravine In nearly all the 'Dry Diggings' (as ravine diggings are termed) no gold remains near the surface, but passes through that, and is found either among the loose rocks next below that, or in the crevices of the solid rock in the bed of the stream, and what is remarkable one finds in some ravines very rich deposits at one point, while not a particle can be found in any other part In others, large deposites exist at points distant from one to twenty rods from each other while in the intervening spaces there is none Where these ravines debouche into the rivers large quantities of fine gold are found, but deeply buried under the rocks and gravel that have washed from the ravine Much of it is found perfectly pure, in lumps varying from six pounds and nine ounces, (which is the largest I have seen) down to one dwt Some in quite fanciful shapes, I have myself found a piece with the plain impression of a leaf, and many other quite curious affairs

Test Chests are about as useful as warming pans in the West Indies any one that ever had a piece of the dust in his hand could not be deceived in the quality

The ravines in which we worked are about twenty five hundred feet above the bed of the river, which from the camp seems no more than three feet in width We also have a magnificent view of the Sierra Nevada about fifty miles to the North East, and farther to the West, of the coast range and the beautiful valley of the Sacramento, you may imagine somewhat of the beauty of the scenery, which I will not depreciate by an attempt at description

Even at the elevation we have here, the heat during the middle of the day is intense, and on the river during the summer months must be—imagine that also

The melting of the snow upon the mountains is the cause of the present very high stage of water, and till it falls, but little can be done at mining, afterwards any one able to undergo the fatigue, and willing to work, may average from one to three hundred dollars per day, for some months

Some will undoubtedly be surprised that one ounce should be esteemed so poor a recompence for one who works in these mines, but if such persons could consult the price current of this place, and realise somewhat of the labor of 'packing' sixty pounds of provisions over mountains which they must drag themselves up and and lower themselves down by bushes and projecting rocks, they would look upon it differently, if they purchase a horse for two or three hundred dollars, five chances out of six, they will find him (if at all) in one week after their arrival at the diggins with a dozen arrows in his body

That immense quantities of gold exist through out the country is an established fact but it can only be obtained by the most laborious exertion, and persons who have not constitutions to bear that, and nerve to sleep on the ground, in the open air with revolver and rifle under their blankets with the prospect of being waked by the war whoop of the Indian, or the Ugh of the Grisly Bear, who cannot have patience to turn over rocks, build dams, handle pick axe, bar and shovel, two or three days, without earning one cent, who cannot live for months on salt pork '*flap-jacks*, in fine, undergo any and every sort of fatigue and privation, had much better remain at home than come to California to dig gold, I shall be most happy to meet any one of my old friends here, but I fear that many will come with very mistaken ideas of what they are to find, and this rough sketch of my experience, may save some of them from disappointment—Prices here, are very much lower then a short time since The articles named below, are a fair specimen of present rates

Beloved of the Evening Star.

A LEGEND OF KENDUSKEAG

BY MRS E OAKES SMITH

Concluded

CHAPTER II

Tis the middle watch of a summer's night—
The earth is dark but the heavens are bright
Nought is seen in the vault on high
But the moon and the stars and the cloudless sky,
And the flood which rolls its milky hue,
A river of light in the welkin blue

Drake.

For three years the hunting grounds of the tribes had been nearly desolate of game The hunters pursued it through long and perilous ways, but the supply had been too scanty to meet their wants Vainly had sacrifices been made all spells and incantations proved of no avail, the women grew sullen and disheartened, while the men, weary of their complaints, and enfeebled by the famine, began to talk of a removal farther west Mequa had scarcely seemed able to comprehend the sufferings of the people, for she was the foster daughter of an expert hunter, and beloved as she was by all around her, she found a supply always ready for her needs, she had kept herself free from anxiety from the natural hopefulness of her character, which found itself incapable of comprehending an evil till it was forced upon her, and because as yet she had suffered little inconvenience—Now however, she appeared weighed down by the sufferings of the people A conviction of want and misery, protracted and increasing, seemed to have fallen with stunning effect upon her mind

Drawing her robe about the wounded arm, and folding her small wrist and hand over it, she arose and stood before them She attempted to speak, but the words refused to leave her lips, and her breast only heaved with inarticulate sounds At length she raised her head and cast a searching glance through the group—Pusanos was not there, and the glare of the torch hid him from her view as he stood with his back against a hemlock, with foot and head advanced, watching her strange proceedings—Recovering firmness, Mequa went on though her face was ashy pale, and she trembled in every limb

"Three nights has a vision appeared to the eye of Mequa Three nights has a youth fair as the moon beams still and solemn, come down from the Evening Star and bid me follow him "You must leave the tribe, Mequa, he said, "for I have blighted the corn and dispersed the game for your sake, and they will perish unless you leave them "I will go away, continued the maiden, "I will bring no more evil upon the tribe

The Chiefs had no doubt the Great Spirit had thus signified his will to the girl, and they sat long with heads reverently bent, suffering her to depart without a word As she left the circle and came into the shadow cast by the great trees which flanked the settlement, Pusanos sprang across her path Mequa looked up in the face of the stern young chief, and stood, so calm, so sad, so utterly bereft of all save her deep inward woe, that even he, who had folded his arms and bent his proud eye scornfully upon her, relaxed his severity, and stooped his head to read the strange mournful expression of her eyes She did not move, but her lips trembled, and a tear which swelled under her lid remained there as if without its fellow

"So then Mequa follows the youth of the Evening Star, at length the chief uttered bitterly

The girl sprang forward and clasped her fingers upon his arm, and looked up searchingly into his face, as if a dim terrible truth grew up on her mind

"I follow the will of the Great Spirit, she at length uttered falteringly

"And who was the fair youth stealing with honey words to the ear of the false hearted maiden " whispered Pusanos

"Mequa is very foolish, but she is not false, she goes to her doom for the good of your people she answered mournfully, for indeed grief seemed to have deprived her of the power of resentment

Pusanos shook his head, with a quick motion tore the robe from her wounded arm

"Think you the Panther has set his fangs thus unless assured of wrong? Mequa shall not go forth—she shall be the scorn of her sex

The girl dropped her arms to her side, and stood for a moment as if crushed and broken-hearted at the tone and words of her lover At length she lifted her head, with its sweet earnest air of indignant spirit, and said "Mequa would know the meaning of Pusanos

"Oh nothing, only that she loves this youth of the Evening Star

"Mequa is doomed by the Great Spirit she dare not love any more She must pass as does the foam from the cataract, the mist over the river, the moon beam when it steals out from the glen, and leaves all to blackness and grief

The solemn tones of her voice, and the truthfulness of her look fell like a chill upon Pusanos, and he murmured, "You do not love me, Mequa

She burst into a flood of sorrowful tears, but was silent

"Hear me, Mequa, three nights have you slept in the cave, and three nights have I sat all night upon the bank with the Kenduskeag between us. I saw you enter, heard your voice singing alone to the falls, and Mequa, three times did I behold the youth of whom you speak steal adown to your resting place The third night I sent an arrow, which should have pierced the heart of the false hearted maiden

Mequa redoubled her tears "I thought it was but Weeng* I knew not the youth of the Evening Star came to me, although I saw him descend in my dreams Oh, Pusanos, will he take me from thee? In the Spirit Land wilt thou find me

"Had you loved me, Mequa you had not slept in the cave of Weeng Even the stars above had not dared to love the chosen of Pusanos, had she been true of heart"

Mequa wrung her hands bitterly "Poor, foolish Mequa" was all she could say

"No, Mequa—you were full of weak fancies, and now all is lost I could not trust you, even of should you bring me the great shining stone of the White Hill's† which though near at hand, as you climb the cliff, is forever seen upon a more distant peak when the summit is gained! But mind me Mequa, do not attempt to escape The arrow of Pusanos shall find you if but a step from the village"

Passing on a few spaces he turned back, and saw her still upon the spot, with her sweet eyes fixed upon him He returned, and would have led her away, but she shrank from his touch, and looked imploringly into his face, saying

"Let me go, Pusanos, it is the will of the Great Spirit, I would save thy people from farther harm If I may not go, let the arrow of the Panther finish his work, why should Mequa perish by fire and torture?

The Chief shuddered and bounded forward, as if even then his strong arm was enough to shield her from harm, although his heart was filled with the bitterness of distrust

"Oh that Mequa had died with her people! Why should she live? Where is the joy of her heart? Where is the light of her path? She is alone in her grief—no eye weeps for her—no heart pities her—her dreams are evil, and yet her heart is not bad—oh that she might die!" She had cast herself upon the ground and in this way gave utterance to her emotions

CHAPTER III

White man I say not that they be
Who preach a faith so dark and drear
That wedded hearts in yon cold sky
Meet not as they were mated here
But scorning not thy faith thou must
Stranger in mine have equal trust

Hoffman

A month went by and the sufferings of the tribe were daily increasing The chiefs wondered at the stay of Mequa after the announcement she made No one doubted the truth of the revealment, and people began to scorn the girl who shrank feebly from the mission of the Great Spirit They looked when she should go forth to her solitary doom, and leave them again to the smiles of the Spirit of Good They came to her wigwam and demanded that she should be given up by her foster parents for the welfare of the tribe

Mequa heard the tumult of voices and she came to the door of the lodge All shrank back with surprise so pale and so changed had she become They could still see the lustrous eyes of the graceful Mequa the sweet, earnest mouth but her cheek was thin, and her form swayed in its feebleness like a reed in the storm Casting her mournful glance over the group she saw not the person of the Panther and a deadly chill grew upon her, for she thought of the tortures of the sacrifice to which she supposed herself doomed But not one laid grasp upon her and she stood with folded hands waiting when they should speak

"Mequa will obey the will of the Great Spirit, she said meekly observing that all were silent Passing through the group, she took her way to the cliff upon the banks of the Kenduskeag, which was within the area of the village The people followed at a distance no doubting that she would now obey the voice of the vision which had commanded her to leave her adopted tribe for the good of the people

Her steps were feeble and as she went on tears, silent and hopeless, fell from her eyes—Sometimes she stopped as if even then she clung to the idea that Pusanos would save her for she sent keen glances to the wooty covert and up the ravine, from whence she had so often seen him emerge in her days of gladness—But he came not and she pursued her way alone with the people mourning yet demanding her doom

Reaching the verge of the cliff she stood long peering down into the *roaring* mass not in terror of the fall for she gave back no repining glance but as if communing with the solitude and immensity of the great world from which she must depart At length she lifted her eyes upward and then it seemed as if the silvery mist which hung over the river veiled her in and she floated downward falling, and yet sustained

As the day closed in the hunters laden with spoil were entering the village and Pusanos was the first to detect the group in the rear of the cliff Casting aside the burdens of the chase he sprang with long bounds to the spot just as the form of Mequa sank downward One moment the light figure of the youth was poised upon the verge, one moment fixed and statute like he stood between the spectator and the red warm light of the horizon, and the cold gray headland loomed up as it went and the river rolled beneath chafing the rocks with its never ceasing flow

The people uttered a cry of grief for the youth and maiden were the beloved of the tribe As they lifted up their eyes, the clouds parted and the new moon in the form of a silver bow faint and slender appeared as if hanging from the sky over the spot where the lovers had disappeared, and by its side was a bright star, white and most beautiful and they knew it was Mequa beloved of the Evening Star who thus nestled at the side of Pusanos whose bow was placed in the heavens to protect the maiden so gentle and loving Since that time whenever the moon comes forth thus in the heavens a slender bow with one meek star at her side the Indians say it is Mequa and Pusanos and at such times they offer sacrifices to the memory of her, who through her gentle offering of herself brought them a fruitful harvest and an abundance of game When she thus appears beside her lover it is an omen of good

It is not unusual for an Indian to dream in the way described in the above legend, that some great sacrifice, some immolation of himself or some journey or labor is demanded of him for the public good, and the mandate is religiously obeyed To shrink from the mission to disregard the voice of the Great Spirit made audible in dreams, is considered to the last degree wicked and cowardly Whatever evils may afterwards befall the individual or the public would be regarded as a penalty for his impiety It is curious to trace the analogy in this to the belief of the ancients, when dreams were treated with solemn reverence and oracles were both alike deluded by the vagueness of mystery in which the human mind delights, that the mummeries of the priest were practised less from the intent to deceive than to produce a state best adapted to the purposes of clear vision We are fast casting aside the crude shackles of superstition and God only knows how much of the best part of religion is going also—its simpleness of faith its earnest and affectionate hold of the heart which clings to it with the tenacity of the Patriarch when he said I will not let thee go except thou bless me The cold intellectual assent of the understanding, however high in the abstract is poor in comparison with that life giving grasp which though dimmed by excess of faith is yet the grasp of one who feels a great and overwhelming human need

Surely it is not well to make our religion, as the tendency of the age is a matter of logical deduction a subject of seventh day speculation when it should be a daily and hourly craving of the heart, a going forth of the heart to commune with spirit a beautiful lifting of the veil of the temple to behold the mystery and glory within The instinctive faith of the child man is better than this, who sees God in clouds and hears him in the wind' and who in the dimness of his reverence, gropes a mid omens and dreams in the blind fear of slight ing the intimations of that all-pervading power which he "ignorantly worships"

*The Indian God of sleep.

†The Carbuncle of the White Hills is often referred to in Indian legends, and the common people of that region have many vague and romantic stories connected with attempts to discover its existence.

Dr. Townsend's

COMPOUND EXTRACT OF

SARSAPARILLA,

Wonder and Blessing of the Age

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This Extract is put up in Quart Bottles—it is six times cheaper pleasanter and warranted superior to any sold It cures without vomiting, purging sickening or debilitating the Patient

The great beauty and superiority of this Sarsaparilla over all other medicines is while it eradicates disease it invigorates the body It is one of the very best

SPRING AND SUMMER MEDICINES

ever known it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood a power possessed by no other medicine And in this lies the grand secret of its wonderful success —It has performed within the last five years, more than 100,000 cures of severe cases of disease at least 15,000 were considered incurable It has saved the lives of more than 5 000 children during the two past seasons

10,000 CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY

Dr Townsend's Sarsaparilla invigorates the whole system permanently To those who have lost their muscular energy by the effect of medicine or indiscretion committed in youth, or the excessive indulgence of the passions and brought on a general physical prostration of the nervous system, lassitude, want of ambition fainting sensations, premature decay and decline hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy This Sarsaparilla is far superior to any

INVIGORATING CORDIAL

As it renews and invigorates the system gives activity to the limbs and strength to the muscular system to a most extraordinary degree

CONSUMPTION CURED

Cleanse and Strengthen Consumption can be cured Bronchitis, Consumption, Liver Complaint, Colds, Catarrh Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush Night Sweats, Difficult or profuse Expectoration, Pain in the Side, &c , have been and can be cured

SPITTING BLOOD

New York April 28 1847

Dr Townsend—I verily believe that your Sarsaparilla has been the means through Providence of saving my life I have for several years had a bad cough It became worse and worse At last I raised large quantities of blood had night sweats and was greatly debilitated and reduced and did not expect to live — I have only used your Sarsaparilla a short time, and there has a wonderful change been wrought in me I am now able to walk all over the city I raise no blood, and my cough has left me You can well imagine that I am thankful for these results

Your obedient servant,

WM RUSSELL 65 Catherine st

RHEUMATISM

This is only one of more than four thousand cases of Rheumatism that Dr Townsend's Sarsaparilla has cured The most severe and chronic cases are weekly eradicated by its extraordinary virtues

James Cummings, Esq one of the assistants in the Lunatic Asylum Blackwell's Island, is the gentleman spoken of in the following letter

Blackwell's Island, Sept 14, 1847

Dr Townsend—Dear Sir I have suffered terribly for nine years with the Rheumatism considerable of the time I could not eat, sleep or walk I had the most distressing pains and my limbs were terribly swollen I have used four bottles of your Sarsaparilla and they have done me more than one thousand dollars worth of good I am so much better—indeed, I am entirely relieved You are at liberty to use this for the benefit of the afflicted Yours respectfully,

JAMES CUMMINGS

FITS! FITS! FITS!

Dr Townsend not having tested his Sarsaparilla in cases of Fits, of course never recommended it and was surprised to receive the following from an intelligent and respectable Farmer in Westchester County

Fordham, August 13 1847

Dr Townsend—Dear Sir I have a little girl, seven years of age who has been several years afflicted with Fits we tried almost every thing for her, but without success, at last although we could find no recommendation in your circulars for cases like hers, we thought, as she was in very delicate health, we would give her some of your Sarsaparilla, and are very glad we did for it not only restored her strength but she has had no return of the Fits, to our great pleasure and surprise She is fast becoming rugged and hearty, for which we feel grateful Yours respectfully

JOHN BUTLER, Jr

FEMALE MEDICINE

Dr Townsend's Sarsaparilla is a sovereign and speedy cure for Incipient Consumption, Barrenness, Prolapsus Uteri or Falling of the Womb Costiveness, Piles Leucorrhoea or Whites, obstructed or difficult Menstruation Incontinence of Urine or involuntary discharge thereof and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity illness, or accident Nothing can be more surprising than its invigorating effects on the human frame Persons all weakness and lassitude, from taking it, at once become robust and full of energy under its influence It immediately counteracts the nervelessness of the female frame which is the great cause of Barrenness — It will not be expected of us, in cases of so delicate a nature to exhibit certificates of cures performed but we can assure the afflicted that hundreds of cases have been reported to us Thousands of cases where families have been without children after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

TO MOTHERS AND MARRIED LADIES

This extract of Sarsaparilla has been expressly prepared in reference to female complaints No female who has reason to suppose she is approaching that critical period, *The turn of life* should neglect to take it, as it is a certain preventive for any of the numerous and horrid diseases to which females are subject at this time of life This period *may be delayed for several years by using this medicine* Nor is it less valuable for those who are approaching womanhood as it is calculated to assist nature by quickening the blood and invigorating the system Indeed this medicine is invaluable for all the delicate diseases to which women are subject

It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating as to produce subsequent relaxation—which is the case of most medicines taken for female weakness and disease By using a few bottles of this medicine many severe and painful surgical operations may be prevented

GREAT BLESSING TO MOTHERS AND CHILDREN

It is the safest and most effectual medicine for purifying the system and relieving the sufferings attendant upon child birth ever discovered It strengthens both the mother and child prevents pain and disease increases and enriches the food—those who have used it think it is indispensable It is highly useful both before and after confinement, as it prevents diseases attendant upon childbirth — in Costiveness Cramps, Swelling of the Feet Despondency Heartburn Vomiting, Pain in the Back and Loins, False Pains, Hemorrhage and in regulating the secretions and equalizing the circulation it has no equal The great beauty of this medicine is it is always safe, and the most delicate use it most successfully very few cases require any other medicine—in some a little Castor Oil or Magnesia is useful Exercise in the open air and light food with this medicine, will always ensure a safe and easy confinement

BEAUTY AND HEALTH

Cosmetics, Chalk, and a variety of preparations generally in use, when applied to the face, very soon spoil it of its beauty They close the pores of the skin, and check the circulation, which, when nature is not thwarted by disease or powder, or the skin inflamed by the alkalies used in soaps, beautifies its own production in the "human face divine," as well as in the garden of rich and delicately tinted and variegated flowers A free, active and healthy circulation of the fluids or the coursing of the pure, rich blood to the extremities is that which paints the countenance in the most exquisite beauty It is that which imparts the indescribable shades and flushes of loveliness that all admire but none can describe This beauty is the offspring of *nature*—not of *powder* or *soap* If there is not a free and healthy circulation, there is no beauty If the lady is fair as driven snow, if she paint and use cosmetics and the blood is thick, cold, and impure, she is not beautiful If she be brown or yellow, and there is pure and active blood it gives a rich bloom to the cheeks, and a brilliancy to the eyes, that is fascinating

This is the reason why the southern and especially the Spanish ladies, are so much admired Ladies in the north who take but little exercise or are confined in close rooms, or have spoiled their complexion by the application of deleterious mixtures, if they wish to regain elasticity of step buoyant spirits, sparkling eyes, and beautiful complexions they should use Dr Townsend's Sarsaparilla Thousands who have tried it are more than satisfied are delighted Ladies of every station crowd our office daily

NOTICE TO THE LADIES

Those that imitate Dr Townsend s Sarsaparilla have invariably called their stuff a *great remedy for females, &c , &c* , and have copied our bills and circulars which relate to the complaints of women, word for word—other men who put up medicine have, since the great success of Dr Townsend's Sarsaparilla in complaints incident to females, recommended theirs, although previously they did not A number of these Mixtures, Pills, &c are injurious to females, as they aggravate disease, and undermine the constitution

SCROFULA CURED

This Certificate conclusively proves that this Sarsaparilla has perfect control over the most obstinate diseases of the blood Three persons cured in one house is unprecedented

THREE CHILDREN

Dr Townsend. Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine — They were afflicted very severely with bad sores, have taken only four bottles, it took them away, for which I feel myself under great obligation Yours respectfully,

ISAAC W CRAIN, 106 Wooster st

OPINIONS OF PHYSICIANS

CAUTION.

Owing to the great success and immense sale of Dr Townsend's Sarsaparilla, a number of men who were formerly our Agents, have commenced making Sarsaparilla Extracts, Elixirs, Bitters Extracts of Yellow Dock, &c They generally put it up in the same shaped bottles, and some of them have stole and copied our advertisements —they are worthless imitations, and should be avoided

N. H. DOWN'S

Vegetable Balsamic Elixir.

The Great Northern Remedy for Consumption !

ALSO the most effectual remedy in the world for *Colds Coughs Whooping Cough Croup or Quincy, Asthma, Pain in the Side or Stomach*, and all diseases of the LUNGS AND LIVER

This medicine is purely vegetable, and is by far the most effectual medicine known for all diseases affecting the BRONCHIAL OR PULMONARY ORGANS

Its effect upon the patient is most marked and differs from that of most medicines recommended for the same complaints in the following particulars

1st—It never irritates the organs it should soothe —never dries up the cough, leaving the cause untouched—but first *loosens the cough increases the expectoration or spitting* then removes the cause *eradicating it completely* from the system, when as a matter of course the *cough ceases* and the patient is well

2d—It never produces costiveness in the consumptive patient—on the contrary, it has a laxative effect and is a moderate cathartic We defy the world to produce a case of costiveness so inveterate but that in two or three weeks (the patient in the mean time having proper regard to diet) it will entirely remove it, and produce a healthy action of the bowels

3d—It does not produce a *dryness of the skin* but is a powerful promoter of *sensible and insensible perspiration*, thus expelling by the pores of the skin those nauseous fluids and impurities of the blood the retention of which in the system is the *sure precursor of* DISEASE SICKNESS AND DEATH

We do not pretend that DOWNS ELIXIR is a specific for all the ills that flesh is heir to, but we do say, and can confirm by incontestable evidence, that for

CONSUMPTION.

And all all diseases of the *lungs the liver and the pulmonary organs* it is *unrivalled—unequalled* — HUNDREDS have been snatched from an UNTIMELY GRAVE, and hundreds who *delayed too long its use*, have found in the advanced state of their disease that RELIEF FROM SUFFERING which they had vainly sought from every other source

THIS INVALUABLE MEDICINE is *highly concentrated* and put up in 2 oz and 14 oz bottles at fifty cents and one dollar per bottle, and each bottle warranted to contain MORE CURATIVE PROPERTIES than four bottles of any of the *weak, adulterated* pint bottle preparations of the day

We have received *hundreds of certificates* of its wonderful cures, from every part of the country many of which have been published *and may be had gratis of any of our agents*

Sold wholesale and retail by CURTIS & SMITH General Agents, ST ALBANS VT , to whom all orders for supplies of the medicine should be addressed (stating the best mode of sending it)—also sold by agents in nearly all the villages and towns in the country

CAUTION EXTRA.

A man by the name of *CLAPP* has engaged with a young man of the name of S P Townsend, and uses his name to put up a Sarsaparilla, which they call Dr Townsend's Sarsaparilla, denominating it *GENUINE* Original, etc This Townsend is no doctor, and never was, but was formerly a worker on railroads, canals, and the like Yet he assumes the title of Dr, for the purpose of gaining credit for what he is not This is to caution the public not to be deceived and purchase none but the *GENUINE ORIGINAL OLD* Dr Jacob Townsend's Sarsaparilla, having on it the Old Dr's likeness, his family coat of arms and his signature across the coat of arms

Principal Office, 102 Nassau st New York City

OLD DR. JACOB TOWNSEND,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr Townsend is now about 70 years of age and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL* "TOWNSEND SARSAPARILLA" Being poor he was compelled to limit its manufacture by which means it has been kept out of market and the sales circumscribed to those only who had proved its worth and known its value It had reached the ears of many nevertheless as those persons who had been healed of sore diseases and saved from death proclaimed its excellence and wonderful

HEALING POWER

Knowing *many years ago* that he had by his skill, science and experience devised an article which would be of incalculable advantage to mankind when the means would be furnished to bring it into universal notice when its inestimable virtues would be known and appreciated This time has come the means are supplied this

GRAND AND UNEQUALLED PREPARATION

is manufactured on the largest scale and is called for throughout the length and breadth of the land especially as it is found incapable of degeneration or deterioration

Unlike young S P Townsend it improves with age and never changes but for the better because it is prepared on *scientific principles* by a scientific man The highest knowledge of Chemistry and the latest discoveries of the art have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla The Sarsaparilla root it is well known to medical men contains many medicinal properties and some properties which are inert or useless and others which if retained in preparing it for use produce *fermentation* and *acid* which is injurious to the system Some of the properties of Sarsaparilla are so volatile that they entirely evaporate and are lost in the preparation if they are not preserved by a *scientific process* known only to those experienced in its manufacture Moreover these *volatile principles* which fly off in vapor or as an exhalation under heat, are the very essential medical properties of the root which give to it all its value

Any person can boil or stew the root till they get a dark colored liquid which is more from the coloring matter in the root than from any thing else they can then strain this insipid or vapid liquid sweeten with sour molasses and then call it "SARSAPARILLA EXTRACT or SYRUP" But such is not the article known as the

GENUINE OLD DR JACOB TOWNSEND'S SARSAPARILLA

This is so prepared that all the inert properties of the Sarsaparilla root are first removed every thing capable of becoming acid or of fermentation is extracted and rejected then every particle of medical virtue is secured in a pure and concentrated form and thus it is rendered incapable of losing any of its valuable and healing properties Prepared in this way it is made the most powerful agent in the

Cure of innumerable diseases.

Hence the reason why we hear commendations on every side in its favor by men women and children We find it doing wonders in the cure of *CONSUMPTION DYSPEPSIA and LIVER COMPLAINT and in RHEUMATISM SCROFULA PILES, COSTIVENESS all CUTANEOUS ERUPTIONS PIMPLES BLOTCHES* and all affections arising from

IMPURITY OF THE BLOOD

It possesses a marvellous efficacy in all complaints arising from *Indigestion* from *Acidity of the Stomach* from unequal circulation determination of blood to the head palpitation of the heart cold feet and hands cold chills and hot flashes over the body It has not its equal in *Colds* and *Coughs* and promotes easy expectoration and gentle perspiration relaxing stricture of the lungs throat and every other part

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS

It works wonders in cases of *Fluor Albus or Whites Falling of the Womb Obstructed Suppressed or Painful Menses Irregularity* of the menstrual periods and the like and is as effectual in curing all the forms of *Kidney Disease*

By removing obstructions and regulating the general system it gives tone and strength to the whole body and thus cures all forms of

Nervous diseases and debility,

and thus prevents or relieves a great variety of other maladies as *Spinal irritation Neuralgia St Vitus Dance Swooning Epileptic Fits Convulsions* &c

It cleanses the blood excites the liver to healthy action tones the stomach and gives good digestion, relieves the bowels of torpor and constipation allays inflammation purifies the skin equalizes the circulation of the blood producing gentle warmth equally all over the body and the insensible perspiration relaxes all strictures and tightness removes all obstructions and invigorates the entire nervous system Is not this then

The medicine you pre-eminently need?

But can any of these things be said of S P Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S

because of one GRAND FACT that the one is INCAPABLE of DETERIORATION and

NEVER SPOILS.

while the other DOES , *souring fermenting* and *blowing the bottles* containing it into fragments the sour acid liquid exploding and damaging other goods Must not this horrible compound be poisonous to the system?— *What! put acid into a system already diseased with acid?* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs what mischiefs it produces? flatulence heartburn palpitation of the heart liver complaint diarrhoea dysentery colic and corruption of the blood? What is Scrofula but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin Scald Head Salt Rheum Erysipelas White Swellings Fever Sores and all ulcerations internal and external? It is nothing under heaven, but an acid substance which sours and thus spoils all the fluids of the body more or less What causes Rheumatism but a sour or acid fluid which insinuates itself between the joints and elsewhere irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases of impurity of the blood, of deranged circulations and nearly all the ailments which afflict human nature

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING ACID "COMPOUND" OF S. P TOWNSEND,

and yet he would fain have it understood that Old Dr Jacob Townsend s *Genuine Original Sarsaparilla* is an IMITATION of his inferior preparation "

Heaven forbid that we should deal in an article which would bear the most distant resemblance to S P Townsend's *article!* and which should bring down upon the Old Dr such a mountain load of complaints and criminations from Agents who have sold and purchasers who have used S P Townsend s FERMENTING COMPOUND

We wish it understood, because it is the *absolute truth*, that S P Townsend s article and Old Dr Jacob Townsend s Sarsaparilla are *heaven wide apart* and *infinitely dissimilar*, that they are unlike in every particular having not one single thing in common

As S P Townsend is no doctor and never was is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common unscientific unprofessional man what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease? It requires a person of some experience to cook and serve up even a common decent meal How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases?

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity to kindle hope in the despairing bosom to restore health and bloom and vigor into the crushed and broken and to banish infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it, that they may learn and know, by joyful experience, its

Transcendent Power to Heal.

DR. STEPHEN JEWETT'S

Justly and Highly Celebrated

Family Medicines,

Used by Physicians of high Standing.

Prepared by STEPHEN JEWETT son of the late *DR STEPHEN JEWETT of Rindge N H*

IT is not pretended that ANY ONE of these Medicines will RELIEVE OR CURE EVERY DISEASE ALL REASONABLE PERSONS KNOW NO SINGLE ARTICLE CAN ACCOMPLISH SUCH RESULTS But it is TRUE EACH of these medicines, by thorough trial, will be pronounced to have NO SUPERIOR OR EQUAL FOR RELIEF and PERMANENT CURE of those diseases for which they are recommended, as they have been tried, and proved by their continued use for the last fifty years by NUMEROUS FAMILIES and PHYSICIANS to be TRULY ' FAMILY MEDICINES " and pronounced to be ALL the MEDICINES ANY PERSON or FAMILY can require, unless in very extraordinary cases Their power over disease has *not been excelled—if equalled*,—as numerous cures attest, where skillful physicians have failed to produce relief

ALL CAN BE CURED WHO WILL USE THEM AS DIRECTED, IF WITHIN THE POWER OF MEDICINE

Dr. Stephen Jewett's Celebrated

True Health Restoring Bitters.

These Bitters remove all morbid secretions purify the blood give great tone and vigor to the digestive organs, cure diseases that already exist, fortify the system against all future disease can be taken with safety—at no time debilitating the patient being grateful to the most delicate stomach, and remarkable for CHEERING, INVIGORATING STRENGTHENING and RESTORATIVE PROPERTIES and an invaluable and sure remedy in

McKENNEY'S COSSACK SALVE.

An Invaluable Remedy

FOR Fever Sores Rheumatism Swelled Feet and Limbs Swelling Sore Throat Chronic Eruptions Scrofulous Diseases Rigid Cords Colds or Strains Stiff Neck Chilblains Chapped hands Sore or Inflamed Breast Pains in the Stomach Piles Corns Common Sores and Cuts and Bruises

In bringing this article before the Public we are aware that we labor under no small disadvantage amidst the multitude of "All Healing, Ointments" and "Panaceas" that are now offered as the 'most effectual' and certain remedies indiscriminately to which man and animal are subject

A history of this Salve and the wonderful cures it has effected in the above complaints may be found in a pamphlet accompanying each box, reference to which is invited

We would only add that in having undertaken the task of manufacturing the above Salve, not without no inconsiderable trouble and expense, as a matter of speculation and profit, but in compliance with the earnest solicitations of personal friends and those who have experienced its wonderful medicinal properties

To say indeed, that we do not expect a handsome remuneration for our services would be alike useless and untrue but we flatter ourselves that it, forsooth, we recommend this article soon, very soon has an extensive sale. Public are receiving a full and ample equivalent

As we have already intimated we shall not call to our aid the empty puffs, or the bought certificates and shall make use of them only as they have been heretofore unsolicited

The Salve is now before the Public

Try, and then use, and decide upon its virtues and medicinal properties were they equal to ourselves—to say more is superfluous

Here are some of the many Certificates —

The subscriber was afflicted with a sore upon his leg for about six years In the fall of 1845 it commenced — no longer obtained relief After using many remedies with success I at last had some Salve of McKenney and continued its application used six bottles which entirely cured have had no return of the disease since I also say that I know the above Salve cures Corns one of my family having used for that purpose with complete success

Dexter (Maine) May, 1846

This certifies that one of my sons has been afflicted with a Fever Sore for more than two years and having tried various medicines to no avail without success which cost me about I bought 1 oz of JONATHAN S McKENNEY which effected an entire cure in months SIMEON MA

BANGOR J

Mr McKenney —In going into the autumn of 1845 with the charge of a gang of men for the winter lumbering operations induced to take a few bottles of your Salve having been recommended to me as one of the best remedies for accidental Cuts and Bruises and found indeed to my great satisfaction an invaluable article I also made use of it in cases of Cuts Sprains and Bruises and found it equally beneficial I can therefore be called the All Healing Salve
